## MERCHANTS WILL SELL GOODS AT SACRIFICES

Pre-Easter Storm Damages Their  
Trade, but This Need Not  
Worry Purchasers.

"Yes, the storm gave business a regular solar-plexus," said R. P. Andrews, president of the Retail Merchants' Association, last night, "but the public will get the benefit in some wonderfully attractive sales during the next few days. It was a big surprise to everybody, of course, but especially trying on the merchant who had laid in big stocks with the expectation of quick turnover. Naturally, if there was not sufficient opportunity to sell the goods before Easter the merchants are going to see to it that they are disposed of, beginning Monday morning. Therefore, the public need not feel quite as badly about the weather as the merchant."

The spring gambol committee of the Retail Merchants' Association met Friday afternoon in the rooms of the association and decided to seek a steamer for charter for a river trip in May. It is likely that the trip will be along Chesapeake Bay and its tributaries, winding up in Washington.

The committee adjourned its session until Tuesday afternoon, when a reply will be had from a steamer company. The following is the personnel of the spring gambol committee: R. P. Andrews, chairman; F. V. Killian, Myer Feltz, Harry E. Mayer, E. E. Rapley, John L. Newbold, Sidney Reizenstein, William Ramo, N. Samuel, Charles Schwartz, George W. Spier, Charles G. Stott, Joseph Strassburger, G. Joseph Swartz, Will H. Towles, B. E. Tremie, W. H. Warrenton, Whitman Osgood, F. P. Wilcox, S. M. Avery, John H. Onrich, Joseph M. Stoddard, Charles F. Crane, W. H. Fisher, Harry King, Julius Lansburgh, Ernest Mayer, J. W. Lucas, Dr. John W. Lowe, Arthur Newman, Ben Schwartz, Washington Topham, Edward W. Zea, Simon Kahn, P. H. Martin, O. J. DeMott, E. H. Droop, B. M. Bridget and Max Rich.

## CARRIERS WILL BE HEARD

Cummins Amendment to Commerce  
Act May Be Clarified.

To clear up the situation as to just what the Cummins amendment to the act to regulate commerce means, the Interstate Commerce Commission yesterday afternoon announced that on April 10 "the representatives of the carriers are expected to present to the commission suggestions or plans to be followed by the carriers in the light of the changes in the law recently enacted commonly referred to as the Cummins amendment." The hearing, it was stated, would be public.

The Cummins amendment provides that it shall be unlawful for any common carrier to restrict its liability to shippers, and that any receipt, bill of lading, or tariff which attempted to relieve the carrier of full liability should be void. In tariffs filed with the commission rates are fixed at so many cents a hundred pounds, but these rates are applicable only in case the shipper accepted the terms of the carriers' uniform bill of lading which limits liability. Otherwise the rate is 10 per cent higher.
